I am a passionate backend developer with a high proficiency in building robust
and scalable web applications.
My core expertise lies in utilizing Django Rest framework, PostgreSQL, and
OpenCV to deliver exceptional solutions that merge functionality, performance,
and innovation.
As an example of my work, I engineer application programming interfaces
(APIs) to seamlessly facilitate the dynamic synchronization of product data
between manufacturing facilities and retail outlets, allowing for real-time
updates, seamless data merging, and efficient product management.
